

PRECISION CUTTING TOOLS FOR **AUTOMATIC** LATHE

PRECISION CUTTING TOOLS

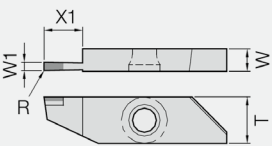

FOR AUTOMATIC LATHE

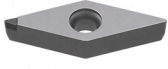

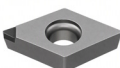

Grit size	Ultra fine
Microstructure (1000x)	
Type	Carbide backed
Grain size	0.5μm
Diamond (%)	85
Grade	EP20
Surface finish	Superior

- High-precision cutting edge.
- Chipping free.
- Outperform tungsten carbide tools in tool life.
- Sharp edge for burr-free machining.
- Custom design available based on customer needs.
